Vision Series

30cm (12") diameter, 39cm (15") height

The Vision Series of globes is available in six colours with beautifully screen-printed maps to suit any interior colour scheme. The globes are mounted on a solid brushed aluminium base and the cartography is up-to-date with approximately 500 place names included.

Anglo

25cm (10") diameter, 34cm (13") height

The Anglo globe series is Designed in Denmark by Claus Jensen & Henrik Holbaek and is available with red, black or slate coloured oceans, all with distinctive silver mapping. The Anglo globe's base is of metal and chromed steel.

Anglo Red

Anglo Black

Anglo Slate

Capital Q LED

30cm (12") diameter, 32cm (13") height

The UK's first rechargeable, wireless illuminated globe, using state-of-the-art and light emitting diode technology. This globe has between 6 and 8 hours battery life. Designed in Denmark by Kristoffer Zeuthen. CODE: QLED

New World Series

Expression Black FC6R

Expression Mint FC4

Expression Silver FC5R

Expression

30cm (12") diameter, 39cm (15") height

The Expression globes are available in three map colours and each model features an aluminium stem with a contrasting black base. The cartography is up-to-date with approximately 500 place names included.

Capital Q White QW

Capital Q Black QB

Capital Q Mint QM

Capital Q Silver QS

Capital Q

30cm (12") diameter, 32cm (13") height

The Capital Q has a unique stand which gives it its name! The globe ball can be rotated 360 degrees , or removed completely giving the user a more tactile experience. The sturdy base is made from rubber and aluminium. International dialling and Internet codes are included in the cartography. Available in four contemporary map colours. Designed in Denmark by Kristoffer Zeuthen.

Stem Reflection (lit)

New World Series

Reflection

30cm (12") diameter, 39cm (15") height

The Reflection globe ball features an award-winning design effect that turns the oceans from white to black when illuminated. The ball is mounted on a solid dark ash wood base and aluminium stem. International dialling and Internet codes are included in the cartography.

Reflection FC8

Stem Reflection (unlit)

Stem Red

Stem

30cm (12") diameter, 112cm (44") height

The Stem is available in both "Reflection" and red ocean colour schemes, both of which are illuminated. The metal stand is finished in chrome for a striking appearance. The globe is illuminated using a discreet foot operated switch.

Nodo

Nodo

The Nodo is a new contemporary globe for this year and features an interesting design effect that makes it the brightest globe in the range, despite using the same low wattage bulbs as our other illuminated globes. The white globe ball has red text and is mounted on a stylish chromed steel base with a striking red electrical cord. Illuminated.

National Geographic Series

The Gold Executive

The Gold Executive features a gun metal style die-cast meridian and walnut base.

The Neon Executive

The Neon Executive features a solid oak base with a turned brass stem.
